## CERTIFICATE OF STRUCTURAL STABILITY

At the request of the Principal, St. Rossello's School, on 06/01/2025 I visited the School building having Ground +2 Upper Floors, belonging to the 'St. Rossello's Education Society (Kh.No. 292, 310, 311 & 312) at Mathani, Mouda, Distt. Nagpur, constructed in the year 2009. I studied the Architectural & Structural Drawings available with the Principal & Inspected the entire school building. The building has been constructed as per the Structural Drawings & during my inspection, I have not noticed any major or minor cracks or any structural deficiency needing any immediate attention or repairs. The entire building is properly maintained & is in good condition.

I therefore certify that the Building is sound & structurally safe & stable for its intended use as a 'School - Building'. I certify that; subject to proper upkeep & maintainance, the future Life of the Building shall be about 75 years.

Nagpur.

Dated : 18/01/2025
